

Pivot System Grease

Enclosed Gear Semi-Fluid Lubricant

No One Likes a Leaky Gearbox

Running your farm is enough work without having to change a center pivot gear box in the middle of growing season, and a failed irrigation system means crops aren't being watered. Hydrotex Pivot System Grease is designed to keep your irrigation system running reliably. This adhesive semi-fluid lubricant keeps gear sets coated to prevent damaging corrosion due to moisture, and keeps seals from leaking lubricant onto your crops. An API GL-5 level extreme pressure additive package ensures maximum wear and scuffing protection for long gear set life. Pivot System Grease is an excellent choice for all center pivot and linear irrigation system gearboxes manufactured by Reinke, Zimmatic, Valley Irrigation, and others.

BENEFITS

- Formulated specifically for irrigation system gearboxes
- Extends life of gear sets and seals
- Solves leaky seal issues
- Prevents costly downtime during growing season
- Superior rust and corrosion protection
- Extends drain intervals up to 6 years

IMPROVE YOUR IRRIGATION EFFICIENCY

Contamination Prevention

Unlike typical gear oils, Pivot System Grease prevents leaks to keep the lubricant in the gearbox where it belongs.

Every gallon of leaked oil can contaminate as much as

*1 million gallons of groundwater**

and can spoil your crops.

Increase Reliability

Even in the event of a catastrophic failure, Pivot System Grease keeps your gears coated during operation and idle periods to prevent corrosion and wear.

Reduced Maintenance Costs

The cost of a gearbox failure means more than just buying a replacement part. Servicing an irrigation system is often an all-day affair, requiring you to carry equipment through a wet field and replace the gearbox in the mud. Pivot System Grease offers you the lowest cost of sustainable lubrication due to its long product life and increased reliability.

For optimal results, use with:

ESSENTIALUBE®

Keep your engine in pristine condition by using with Essentialube, our powerful blending agent which reduces the harmful effects of engine acids and increases engine life. Contains ashless additives and pure hydrocarbon ingredients, contains no metallic additives and will not void warranties.

AQUA MATE® II

Aqua-Mate II wetting agent "makes water wetter." It reduces the surface tension of water to allow better penetration of certain agriculture fertilizers, pesticides, and herbicides while controlling water runoff and evaporation to create a more uniform spray.

ULTRA KLEEN™ FOOD GRADE DRIP OIL

Your crops and cattle depend on clean water. Keep your wells' pumps in pristine condition with the right lubricant for the job. Ultra-Kleen Food Grade Drip Oil provides your pumps with superior corrosion and wear protection and, unlike most drip oils, it is food grade, NSF/ANSI 60 Certified, and Kosher, so you can be confident of its safety.

YOUR LUBRICATION CONSULTANT

About Hydrotex®

Hydrotex® is a manufacturer and distributor of high performance lubricant and fuel improver solutions. As an employee owned company, we help our customers develop sustainable solutions designed to help improve system reliability, save energy, limit pollution, extend asset life, reduce maintenance costs and improve fuel efficiency. Our products and services leverage over 80 years of innovation resulting in superior lubrication solutions.

The Hydrotex Warranty

When properly stored and used in accordance with instructions, any material not satisfactory will be replaced with any product in our line on a dollar for dollar basis provided the account is paid in full when due, and Hydrotex is notified, in writing, within 12 months of the date of the order by the customer.
